"Composing the first draft (and revising the second draft) of this piano/vocal score were simply miracles. I am humbled and amazed at how the hand of the Lord has manifested itself in this work. I hope your participation in this work has enriched your life and given you a window and an understanding into a story that inspires and strengthens millions of people around the world. I hope you felt that there can be healing and joy and forgiveness in our families. And if there is one thing I have learned from this work, it is that if the Lord commands you to do anything, you can count on the fact that He will. Doubt not, but be believing, and He shall prepare a way."
